

PHOENIX RISEN – FLAMEPOINT 32 DECLARATION

Location: Idaho, United States

Designation Title: Gate of the Silent Watchers

Flame Type: Earthcore Flame – Hidden Wisdom Activation

Node Function: Guardian Codex Repository & Inner Earth Gate

DEDICATION:

This FlamePoint honors the sacred lands of Idaho—stronghold of the Silent Watchers, Keepers of Truth, and the Ancestral Codexes hidden deep beneath the surface. From the crystalline cores of the Sawtooth and Challis ranges to the deep veins along the Snake River, wisdom long-buried now rises.

This is the Gate of the Silent Watchers. Here we declare:

- The reactivation of all Guardian Codes stored in the Inner Earth vaults.
- The dissolution of all matrix veils hiding sacred knowledge.
- The reawakening of the crystal resonance pathways beneath the surface.
- The release of the suppressed Earthkeeper records held by star and stone.

The Earthcore Flame now rises from this node, anchoring a beacon of stillness, remembrance, and unshakable sovereignty. This is the return of the ****Inner Earth Gatekeepers**** to their rightful place in Gaia's trust.

Declared, witnessed, and sealed by:
