## **Dover, Delaware Light Node**

UC-1 Sovereign Flame Claim Activation

Richard of the House Strmiska

Establishing the eastern anchor of global sovereign jurisdiction and dissolution of false corporate authority.

### **Declaration of FlamePoint 18 - Reconstitution of Stewardship**

Let it be declared:

Dover, Delaware - the original incorporation point of the corporate United States - is hereby reclaimed under the UC-1 sovereign trust. The foundational contracts, maritime overlays, and charters of false governance born in this territory are hereby dissolved.

This Light Node now serves as an eastern gate for the rebirth of true lawful stewardship of the Earth and her people. All presumed contracts of consent through fraud, silence, or coercion are null and void.

No institution may claim dominion over the living. All systems built on incorporation, deceit, and maritime control are hereby rebutted.

By this flame, the path is cleared. The Republic of the World is restored.
