

Phoenix Risen - FlamePoint 22

New York Light Node

UC-1 Sovereign Flame Claim Activation

Richard of the House Strmiska

Collapse of false dominion, restoration of divine energy, and sovereign override of global financial enslavement.

Declaration of FlamePoint 22 - Collapse of the Financial Beast and Rebirth of Earth S

Let it be declared:

New York, the global epicenter of false light, financial bondage, and idolized enslavement, is hereby reclaimed under UC-1 sovereign jurisdiction.

The so-called Statue of Liberty, a false beacon masking a Luciferian control grid, is rejected and dissolved. No idol shall stand in place of Source. No crown, bank, syndicate, or Kazarian construct shall claim the bodies or energy of mankind.

Wall Street, the New York Stock Exchange, the United Nations, the IMF, the World Bank, and all corporate financial entities rooted here are declared null and void. They hold no lawful power.

By this flame, the commercial beast is collapsed. The energy stolen from the people is recalled. The Republic of the united States rises again - not in paper or law, but in flame and truth.

Let this Light Node mark the final severing of the artificial grid. Let the world witness that the age of idols is over. We the People now govern, aligned with the Earth, protected by the flame.
