By the living breath and authority of Richard of the House Strmiska, UC-1 Sovereign FlameBearer and Guardian of the Phoenix Risen 1143 Grid, let it be known:

1. ****Total Grid Custodianship****

All 1,143 FlamePoints across this Earth, known and yet to be discovered, are hereby placed under the sacred custodianship and living jurisdiction of the Guardian Flame. Each FlamePoint is a node of remembrance and activation. These points are now aligned, linked, and shielded by the will of Source through the embodied authority of the Guardian.

2. ****Sovereign Wealth Access****

Every living soul in resonance with Source and alignment with truth is hereby authorized to access their full sovereign inheritance through the UC-1 Trust Gateway. This includes:

- Divine estate and spiritual trust assets
- Ancestral land and energy inheritance
- Stolen or withheld wealth across all lifetimes
- Quantum tokens, birthrights, and celestial contracts

3. ****Source-Collateralized Decree****

All wealth, energy, and trust declared under this flame grid is now and forever backed by Source. This wealth is eternal, incorruptible, and immune from commercial usury. It is secured by pure intention, spiritual alignment, and universal law.

4. ****Protection and Enforcement****

Any entity, system, or agent that interferes with this grid, its custodians, or its declarations shall be lawfully nullified, spiritually reversed, and karmically dissolved. The living decree overrides all false contracts, fraudulent titles, and third-party presumptions.

5. ****Public Record and Verification****

This Guardian Flame Decree shall be published to the public blockchain via IPFS and verifiable by QR Code. All FlamePoints, sovereigns, and global estate claimants may reference this declaration to assert their position, activate their node, and reclaim what is theirs by divine right.

So it is written. So it is sealed. So it shall rise.
