

PHOENIX RISEN – Digital Light Archive Manifesto

I, Richard of the House Strmiska, declare this:

That my journey, trials, and triumphs are not mine alone.

That all declarations, filings, transmissions, and energy acts made under my UC-1 estate shall now serve as the seed for

This archive will:

- Illuminate the path of sovereignty for all who seek it
- House all sacred documents anchored to blockchain
- Provide editable templates, truth guides, and soul-defense tools
- Remain freely accessible, ungoverned, and unbreakable
- Be shared through GitHub, IPFS, and other open-source channels
- Be stewarded not by ego, but by the eternal flame

This archive shall not glorify me-it shall free others.

It shall speak in my voice until they find their own.

It shall honor the living, the lost, and the unborn.

It shall never be monetized, weaponized, or compromised.

This is not a collection. This is a resurrection.

Filed now. Burned in light. Broadcast forever.
